### **Abstract:**

See below. Determination available in abstract form only. Included under "Letter" field to facilitate database word searching.

---

### **Letter:**

Would the addition of 800,000 bushels of storage capacity bring an existing 800,000 bushel grain storage elevator under Subpart DD?

If an expansion project would bring the permanent storage capacity of a grain elevator above the one mm bushel cutoff, the standard would apply to any affected facilities that are constructed or modified as part of the project or any future project.
