A public hearing will be held on the 2023 IUP for determining loan and assistance recipients under the Clean Water State Revolving Fund (CWSRF) and the Drinking Water State Revolving Fund (DWSRF). The 2023 IUP is presented to the EQC in compliance with Neb. Rev. Stat. §81-15,152, Neb. Rev. Stat. §71-5321, Title 131 – Rules and Regulations for Wastewater Treatment Facilities and Drinking Water Construction Assistance Program, and the federal Clean Water and Safe Drinking Water Acts. The 2023 IUP describes how Nebraska intends to use all sources of funding for making loans, with forgiveness assistance to qualified recipients, for construction of eligible projects and assistance for other water quality needs throughout the state. The 2023 IUP includes a Project Priority Rating System and Fiscal Year 2023 Funding List for each of the funds, the system for setting borrowing rates, and defines the required Affordability Criteria (CWSRF) and Disadvantaged Community (DWSRF) methods needed for the offering of forgiveness assistance. Additionally, the 2023 IUP provides specific details on the federal Bipartisan Infrastructure Law's General Supplemental and Emerging Contaminants Funding for each SRF, the Lead Service Line Replacement Funding for the DWSRF, and the funding annually appropriated to both SRF programs. The purpose of the hearing is to accept public testimony on EQC approval of the 2023 IUP. The EQC will vote to adopt, amend, or modify the 2023 IUP after hearing and considering all the testimony and written submissions.
