

**Recordkeeping: Asphalt Plant Permit-by-Rule
Daily Production, Maintenance, and Observations**

Facility Name _____ Date (month/day/year) _____

Operations: Must be completed ONE time per Day of operation

Asphalt Production Rates: _____ tons/hr _____ tons/day

If diesel fuel is used, Amount of Diesel fuel combusted: _____ gallons/day
or if diesel fuel usage is limited by generator operation time: _____ hours/day

Explain the actions taken today to keep storage pile and haul road moisture content at a level that ensures compliance with Title 129, Chapter 32, Sections 001 and 002.

Daily Observations and Maintenance: Must be completed at least ONE time per Day

Visible Particulate Emissions were observed: YES NO

Non-Control Equipment is operating properly: YES NO

Control Equipment is operating properly: YES NO

If fabric filter/baghouse is used, Pressure Differential Reading: _____

Explain all equipment failures or malfunctions, maintenance, and corrective actions taken (including time of problem/malfunction and when correction was made)

INITIALS _____
