**SECTION 6. SCRAPPAGE REQUIREMENTS**

The diesel engine being replaced must be scrapped or rendered permanently disabled within 90 days of replacement and prior to the submission of this reimbursement request to NDEE by:

Cutting, drilling, or punching a 3" by 3" hole completely through the wall of the engine block.

**Proof of Scrappage:**

Proof of scrappage must be provided with this form. The following documentation is required:

- U.S. EPA Diesel Emission Reduction Program Certificate of Engine/Chassis Destruction form signed by the party responsible for scrapping the engine and by the rebate recipient, and including:
  1. The name and address of the dismantler
  2. Identification of the old engine including model year, and engine serial number
  3. The dates the engine was accepted and scrapped by the dismantler.
- Photographs of the following:
  1. The engine labels that include:
    - a. Engine serial number
    - b. EPA Engine Family identifier
  2. Engine block, prior to hole being cut
  3. Engine block, after hole has been cut
  4. Other photos as needed

Scrappage may be completed by the rebate recipient or by a salvage yard, or similar service, provided all scrappage requirements have been met and all necessary documentation is provided. **The rebate recipient is responsible for ensuring that the required scrappage photographs are acquired and submitted.** Equipment and components that are not part of the engine may be salvaged from the unit being replaced. If scrapped or salvaged parts are to be sold, the resulting income may be retained by the rebate recipient but must be reported to NDEE as program income.
